RESEARCH TITLE/DESCRIPTION:
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________

☐ This form must be completed and the student registered for CHE/PETE1097 at the beginning of each term of research.
☐ Students receiving credit for research may not also collect pay.
☐ Students may register for 1-6 credit(s) and each credit requires 3hrs. work per week for the duration of the term.
☐ Every 3 credits of a 1097 course can be counted as either a Professional or ChE elective.
☐ Research should be paced such that a letter grade is earned each term. G-grades should not be considered except as a last-resort and require an action plan for course completion.
☐ Students receiving credit must be assigned projects with substantial intellectual content and cannot be solely assigned to routine lab maintenance.
☐ Students are to complete all University-required training for researchers and provide proof to the undergraduate administrator before beginning research.
☐ Students are required to submit to the research advisor and to the undergraduate administrator proof-of-work each term. Due to the individual nature of research, this may be a summary of work completed, a paper and/or project as determined by the advisor.
☐ All students who have completed one or more CHE 1097 research courses must present a poster on their work at an approved conference or event at least one time prior to graduation.
