SSoE web team reports to Paul Kovach

This is where the public can view information about SSoE faculty. (Faculty directory pages)

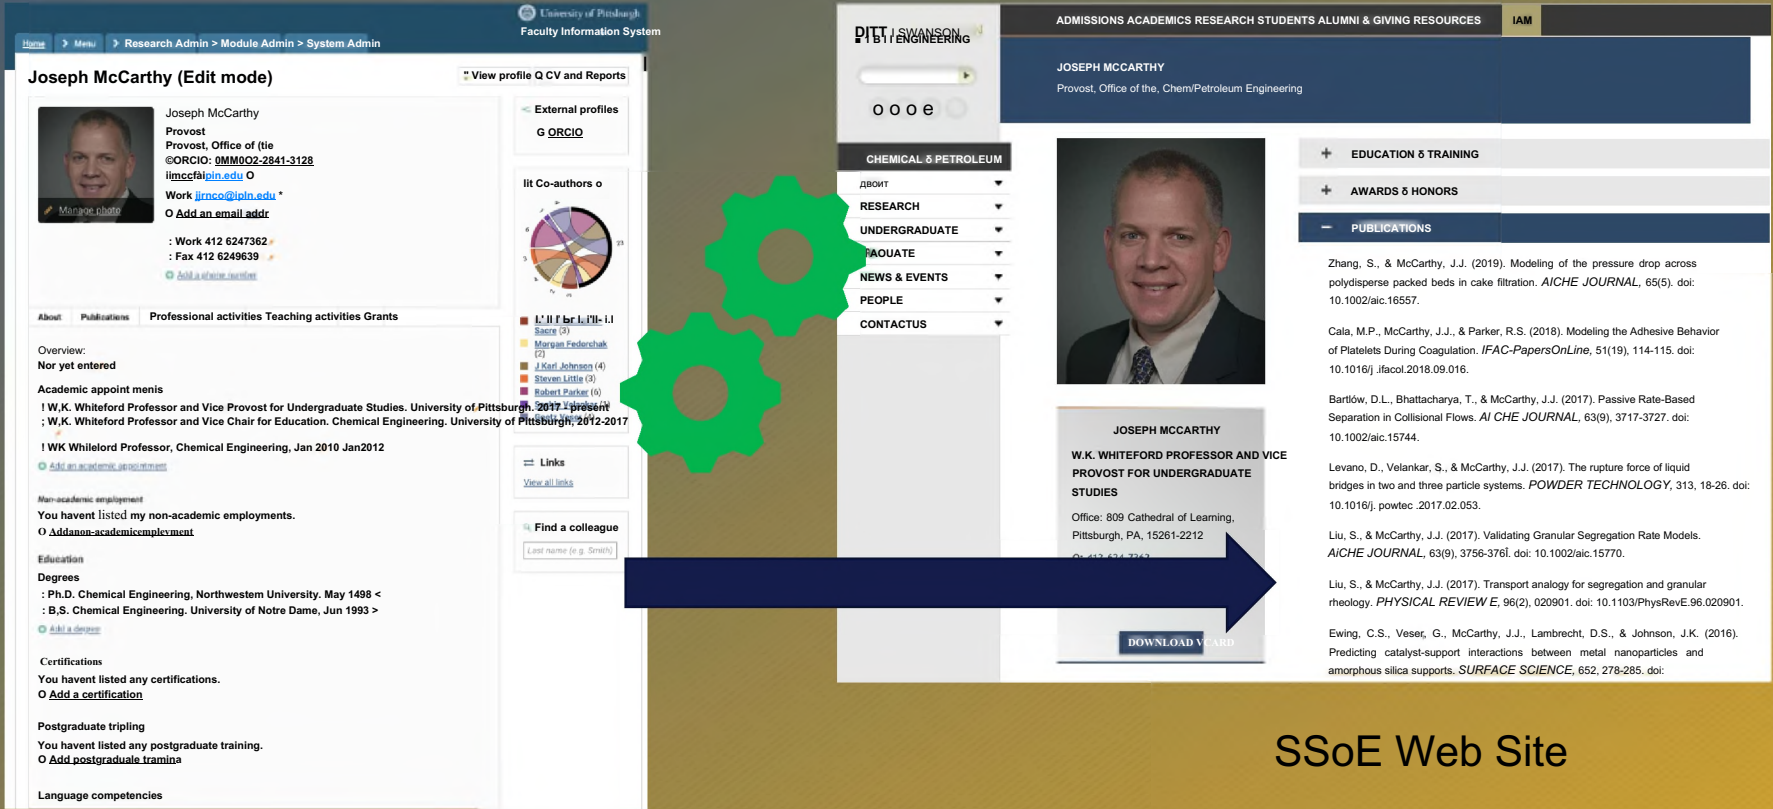

SSoE web pages are fed from the facultyinfo.pitt.edu system

Facultyinfo.pitt.edu

Edit your profile in Elements to keep your faculty directory web pages up to date

SSoE keeps their faculty directories up to date by using the Elements API

Elements

SSoE Web Site

Faculty Information System

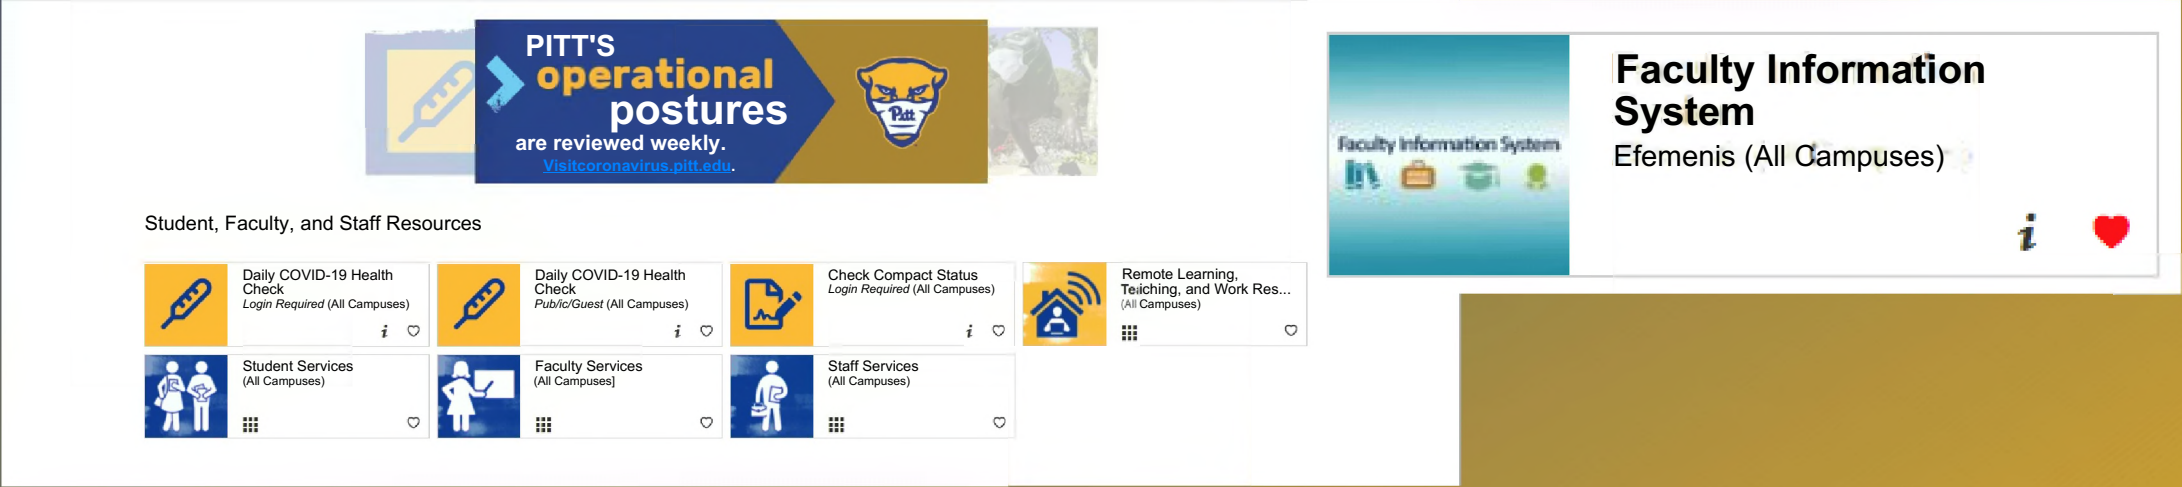

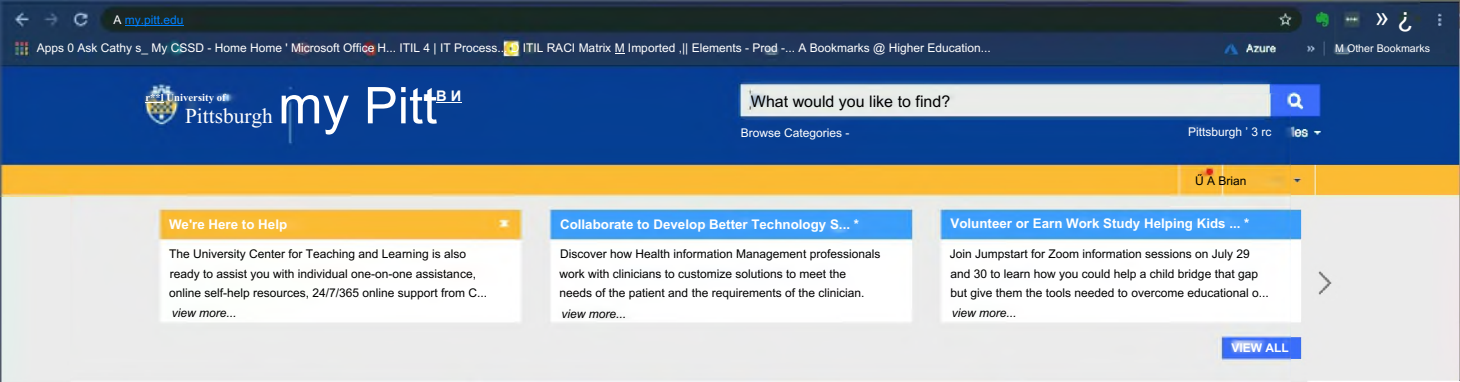

Elements is the software. Symplectic is the vendor

- A centralized system dedicated to supporting the capture, linking, and dissemination of information associated with research and scholarly activities
- Software that allows researchers, administrators, librarians and research staff to collect information about their work and make the data available for repurpose and reuse
 - Person data
 - Publications
 - Teaching and professional activities
 - and more...
- A means of populating institutional repositories
- A tool that supports Open Access policies
- Has a flexible reporting framework

Access the faculty information system through my.pitt.edu

Or go to it directly using facultyinfo.pitt.edu

edit your
profile

The screenshot shows the user interface of the Faculty Information System (Elements) at the University of Pittsburgh. At the top, a dark navigation bar indicates the user is logged in as Brian Stengel, with options to log out or impersonate another user. To the right are icons for navigation, email, and help. Below this is a blue header with the University of Pittsburgh logo and the text "Faculty Information System (Elements)". A breadcrumb trail shows the path: Home > Menu > Research Admin > Module Admin > System Admin. The main content area features a large white box with the heading "Welcome, Brian Stengel". Below the heading is a circular profile picture of Brian Stengel. To the right of the picture, the text "University of Pittsburgh" is followed by the email address "bstengel@pitt.edu" and the ORCID ID "0000-0001-9025-5178". Below the profile picture is a button labeled "Go to your profile". Below the white box is a section titled "My Actions (2)" with a list of actions. The page number "1 of 2" is visible in the bottom right corner.

Ask Paul about pictures.

The default privacy settings are set to “internal”. If you make something “private” it won’t get picked up for the web pages

Add an "Overview" paragraph for your About section

About

Overview

As a Service Owner in our Services and Solutions team I'm responsible for the end-to-end service delivery of select IT service offerings to the University community. Our service offerings provide faculty staff and students with technology to address business problems and capacity to innovate on opportunities.

My services include the Faculty Information System (Elements), Electronic Research Notebooks (LabArchives), and Pitt Password Manager (LastPass).

I was recently a PI for two NSF CC* (Campus Cyberinfrastructure) grants and a Co-PI on a NSF CICI (Cybersecurity Innovation for Cyberinfrastructure) grant and NSF Cybertraining grant.

Customizing your search settings

The screenshot displays the Faculty Information System (Elements) interface. At the top, a user is logged in as Brian Stengel, with options to LOG OUT or IMPERSONATE ANOTHER USER. The main navigation bar includes Home, Menu, Research Admin, Module Admin, and System Admin. The 'Menu' dropdown is open, showing several categories: Manage, My Account, Build, Explore, and Other. The 'My Account' category is highlighted, and its sub-menu is visible, containing options like Profile, View profile, Edit profile, Data Source Search, Automatic claiming, Name-based search, Account Settings, and I Manage delegates. A red arrow points to the 'Automatic claiming' option. The 'Explore' category also shows System Search, Recent Publications, and Saved Searches. The 'Other' category includes Inbox, Workspace, Impersonate, Privacy, and Help. At the bottom, a welcome message for Brian Stengel is displayed.

Name-based search settings

Status

For some types of online database, you are added to a queue. Searches can finish at different times for various reasons, including other queued searches and the relative speeds of searching each data source.

Source	Last searched	Status
Q arXiv	15:00 13 Aug 2020	Last search succeeded.
(E ORCID	15:39 13 Aug 2020	Last search succeeded.
% PubMed	14:5913 Aug 2020	Last search succeeded.
φ Scopus	14:4913 Aug 2020	Last search succeeded.
0 Web of Science (Lite)	15:1313 Aug 2020	Last search succeeded.

Run my searches

Download your online search history

Name-based searches

These settings let you influence how the system performs 'name-based searches' for you, both at online databases and within existing data in the system. This kind of search will result in items being placed in your Pending lists, for you to claim or reject. You can narrow the results returned by name-based searches by including additional information, such as addresses and a research career start date.

Separate identifier-based searches can be managed on the [Automatic Claiming page](#).

Your settings were last modified on 30 Jul 2019 at 07:43 by Brian Stengel.

Name-based search terms

Name variants: *

(last name first)

Stengel. B

Stengel. BS

Stengel BS

Stengel. Brian S

Use the format "Smith, A. G.". This format clearly distinguishes your last name and each of your initials.

Add all combinations of your last name and initials under which you publish. The system will then convert the supplied nameto the exact formats best required when searching each data source. Do not use the format "Andrew Smith" or "AG Smith". Always write your last name first, followed by a comma.

If a name variant is only used by one online database, you can customise this setting in the relevant section of this page.
