

## Suresh Gutta, Ph.D., P.E.

Mr. Suresh Gutta is a Senior Geotechnical Engineer/ Project Manager at American Geotechnical & Environmental Services (A.G.E.S.) Inc. He has more than 18 years of experience in solving complex geotechnical issues in the design and construction of foundations for highway structures.

His experience includes the design of shallow and deep foundations, rock/soil slope stability, landslide remediation, geotechnical field instrumentation, soil reinforcement and ground improvement techniques, and retaining walls.

He is an active member of ASCE, ASHE, ACEC, and Deep Foundations Institute (DFI). He had served as Program Chair for Pittsburgh Section of ASCE Geo-Institute from 2010 to 2011. He currently serves on the DFI Technical Committee on Anchored Earth Retention Committee.

Mr. Gutta earned his doctorate degree in Civil Engineering with specialization in Geotechnical Engineering from University of Delaware. He has Professional Engineer license in PA, OH, and WV.

Mr. Gutta can be reached at [SGutta@agesinc.com](mailto:SGutta@agesinc.com)
