

SUSTAINABILITY SEMINAR *Series*

Sustainability in the Curriculum

Sustainability necessitates the balance of social, economic, and environmental factors in decision-making. Promoting sustainability for regional and global development is a shared goal of countless multinational and local organizations. We are offering this seminar series in support of the Chancellor's Pitt Sustainability Plan to improve, promote, and envision sustainability on campus.

Seminar One

OPEN TO BOTH FACULTY AND STUDENTS

Integrating Sustainability in the Curriculum:
What is sustainability and why is it important?
