U.lab Hub 2020-2021 Cycle

Dear Pitt u.lab hub community,

With temperatures dropping and holidays drawing near, we hope that all of you are feeling thankful and hopeful this time of year!

We'd like to remind you that our second live session is coming up, and that we would love to have you join us there! Our community gathering will begin at 1:00pm on Thursday, October 22nd, following the [global live session](#) at 10:00am the same day. (If you'd like to catch up by watching the first global live session, you can do so [here](#).)

Adaptive Space Community Member Spotlight Series

["A Feasible Whole out of Infeasible Parts": Meet Host Dr. Gemma Jiang](#)

["There is a difference between listening and deep listening": Meet Host Erika Strassburger](#)

["We should think of our society as one big team": Meet Host Ron Idoko](#)

Introducing our Community Member Spotlight Series:

To give you a better sense of the inspiring people who are a part of our Adaptive Space community, we are writing weekly profiles on our members both on the Adaptive Space Mighty Network and on Medium!

While we'd still love to have you as a part of our [Adaptive Space](#), you can check

out our profiles on the group's [Medium](#) page as well. We hope that you'll take time to give our spotlights a read, and that you find our members' journeys as inspiring as we do.

Thank you again to everyone who has joined us so far on our path to creating a welcoming, person-centered home for like-minded professionals! We hope that you'll take the time to read our [spotlight series](#) and join us at the [community gathering](#) next week.

Best wishes to all,

**Your hosts,
Gemma, Erika, Ron, and Lydia**
